## SUMMARY

An Information Systems graduate at De La Salle - College of Saint Benilde with more than 1 year of experience in both Manual and AI QA in academic environments, co-curricular activities, and personal and freelance projects. Currently working (but not bound or tied up) at a startup to gain more knowledge and experience in IT business processes, system development, AI development, integration, QA Testing, and stakeholder engagement. Interested in creating solutions for workflow automation, AI, and business processes.

---

## WORK EXPERIENCE

**Software QA (Part-Time)** • Boundless IT Solutions OPC. **October - Present**

- Executed manual and AI QA testing for the startup company's software products, such as an AI QA, Operations Management System, Field Work Tracker and corporate website to ensure functionality.

**Junior QA Tester** • Circuit Solutions Inc., Pasig, Metro Manila **June 5, 2026 - September 18, 2026**

- Tested mobile and web-based Workdesk Systems across multiple companies, verifying core features including HRIS, Employee Management, Timekeeping, and Payroll.
- Executed comprehensive software testing for a real estate buy-and-sell platform.
- Tested both the software and hardware components of the Ayala Malls Vermosa Car Parking System.
- Conducted brief software testing for a health assistance mobile application.
- Utilized Playwright in conjunction with Gemini CLI to execute testing on the workdesk system.
- Documented system bugs, issues, and project blockers using Jira and Excel Sheets.
- Created comprehensive User Wikis to provide documentation for Workdesk Systems.

**Social Media Manager (Part-time)** • Boundless IT Solutions OPC. **October - Present**

- Boosted brand visibility for the startup company and its products by executing SEO strategies and publishing social media posts.

**Operations Manager** • Quiazon Building Rental, Sampaloc, Manila **August 2020 - Present**

- Enforce building policies and actively address residents’ concerns and inquiries.
- Distribute and collect resident bills.
- Record water and electricity consumption data into a business database to accurately compute the total bill for each resident.
- Report any damages on the property to ensure immediate maintenance visibility.
- Created a system to automate bills and receipts

**Veterinary Assistant** • MollyCoddle Animal Vaccination Services **October 2021 - March 2022**

- Assisted with pet vaccinations while actively addressing pet owners' concerns and inquiries.

---

## EDUCATION

August 2022 - Present

**De La Salle - College of Saint Benilde, Taft Ave, Malate, Manila**

**Bachelor of Science in Information Systems**

January 2015 - January 2021

**O.B. Montessori Center Inc., Pedro Gil, Sta. Ana, Manila**

**Highschool**

## ACADEMIC PROJECTS

January 2026 - March 2026

**Bite Balance: Localized Nutrition Tracking System (Capstone Project)**

**Researcher, Quality Assurance, and Project Manager**

- Conducted research on Filipino dietary habits and existing nutrition tracking systems to inform and support system design.
- Contributed to the conceptualization of core features, including culturally relevant food logging and user-friendly interface design.
- Performed quality assurance testing to identify system issues, ensuring overall functionality, accuracy, and usability.
- Evaluated system performance and provided actionable recommendations for improvement based on user experience and testing results.

## PERSONAL PROJECTS

**Quiazon Building Rental App**

- Developed an application featuring tenant and unit management that eliminates repetitive data input and automates total resident bill calculations with receipt generation.

**Personal Link Website**

- Built a website to consolidate social media platform links for professional connections and career opportunities.

**Overload**

- Developed a workout tracker application.
